

We invite you to **AAT-AD/PD™ Focus Meeting 2018**, a new joint meeting between the *International Geneva/Springfield Symposium on Advances in Alzheimer Therapy (AAT)* and *AD/PD™*.

The conference will present all the latest breakthroughs in treatment, translational R&D, early diagnosis, drug development and clinical trials in Alzheimer's, Parkinson's and other related neurological disorders.

A central theme will be to further advance innovative strategies in therapy and prevention, clinical trials and diagnostic markers discussed in the sessions and corridors at AD/PD™ 2017, in order to focus on driving successful collaborations among academia and industry, leading to the development of innovative drugs and ultimately providing for a better future for patients and families affected by neurodegenerative diseases.

Join us **15-18 March 2018 in the historical city of Torino (Turin)**, the first capital of Italy and the site of the 2006 Winter Olympics at the Southern edge of the Alps.
